Subject: testimonial for website

Nick Collins has been involved with my family for 25 years . He established a great relationship with my parents and for a number of years assisted them in buying and selling other properties in the immediate area, as well as dealing with tenants and tenancy agreements.

In the last 10 years he assisted my mother, then a widow, in managing the flats and when she became ill herself, Sylvie at Hadleigh took over the full management of the flats. Finally the whole team were involved in both the flats and selling the family property, with Michael Vadiya handling the sale.

Throughout we have all been impressed with their sensitivity and professionalism. The whole team worked with all four siblings over a probate sale which demands tact and skill. Nick Collins also provided me with invaluable help in establishing what would be the most advantageous planning permission to apply for pre-sale. His Knowledge and experience were impressive and invaluable in knowing the market and the most effective way of selling the property.

I cannot thank them enough for their integrity, care and attention to our family's matters over so many years. Having dealt with a number of house sales and worked with various estate agents over the years , I can without hesitation recommend everyone at Hadleigh.'

Best wishes

Alison
